Upper Teesdale Agricultural Support Services Ltd (UTASS)

Question 5.

Thinking about your access to broadband...
...Is it...

Unavailable	Poor	Good	Ok	No Response
17	59	40	5	39

Question 7.

Do you struggle with IT skills or access to a computer?

Yes	No	No Response
71	65	24

Question 8.

Please feel free to use the space below to inform us of any other issues or comments you may have.

- "I have already discussed and put my name forward for relevant training courses - just waiting for dates to be confirmed. Your organisation has been a "godsend" for me and I'm sure if you hadn't been here to ask it would have definitely had an affect on my health and we would not be in the business / financial position we are in now. Thank you so much."
- "Rat control training."
- "There are always new things to learn. Life moves on so we need to keep up."
- "I would like to thank everybody at UTASS for their support and help. Without them I would have struggled with farm related paper work since my fathers death."

Upper Teesdale Agricultural Support Services Ltd (UTASS)

- "Relaxation course for farmer's wife please."
- "You always inform me of all the training and courses you have available which is very good."
- "Would like to thank all the staff and volunteers of UTASS for the support of rural life within Teesdale."
- "Communications (broadband & mobile phones) are not noticeably worse than 12 months ago which is disadvantaging us and our business. The government need to address the problems for rural areas or else rural development and employment will cease."
- "Would like to learn how to use internet/computer. How to use google / how to buy goods online etc."
- "Chain saw, tree felling and spraying courses."
- "Had to buy a satellite dish to receive broadband. Expensive & slow. No mobile signal at home."
- "I am fortunate not to need many of the facilities provided at/by UTASS but I appreciate having it here and I know how important the service is to others."
- "MIG welding training."
- "Not happy with plans to appoint a regional mayor, think rural funding will suffer. The re-organisation of Single Farm Payments a proper shambles and being more difficult to work every year being disadvantaged. Need a strong protest body of local knowledge of local problems."
- "This may not be the correct place to voice an opinion but....
Broadband! This 'service' does not appear to have improved at all for us in the past 12 months. Our contract expires in 12 months time and from the service we have had in the past 12 months and the cost, I would be reluctant to continue with the present provider. The alternative BT still has no coverage to our premises. We went onto broadband approximately 16 years ago and the coverage in that time has deteriorated rather than improved. People coming to our holiday cottage find it difficult to appreciate the service we receive for the cost involved. When more and more form filling and returns require input by broadband can an adequate service be provided? In the foreseeable future?"
- "Sorry for my feedback isn't very helpful, but I have only pet sheep & domestic animals and therefore don't feel able to answer some of the questions. Glad to be able to be a member though!"
- "I do not have a computer or know how to use one. I appreciate all help given to access other agencies through UTASS."
- "During 2015 we did not use any UTASS services although we have always received prompt and polite help in years gone by. Keep up the good work."
- "Thank You!"
- "Is there a need for support for the older generation? Computing for older people, understanding money matters, wise shopping, car costs vs taking the bus (if there is one). "
- "Sometimes feel tht rural community between Eggleston and Barnard Castle gets missed out, especially of late, not only by UTASS. New Stewardship doesn't offer these farms any assistance and has had an effect on farms income."
