The Qualification

This Level 5 qualification is accredited through the Chartered Management Institute (CMI) and consist of two full Level 5 qualifications, The CMI Level 5 Diploma in Management and Leadership and the CMI NVQ Level 5 in Management.

Chartered Manager

Chartered Manager is the highest status that can be achieved in the management profession. Awarded only by CMI, thousands of UK managers at all levels and across all sectors now hold Chartered Manager Status and highly value it as Professional Management status.

As Cool Blue Consultancy Ltd is an approved Chartered Management Assessment centre, Students have the option to be assessed throughout the programme to become Chartered Managers and gain full Chartered Manager status and have the letters CMgr MCMCI after their name.

Chartered Manager is a management status and not a qualification and demonstrates a high level of management practice and accreditation as a fully qualified manager. There is a cost to this that is paid directly to the CMI on completion of your Level 5 Qualification.

Attendance

The course runs for a period of 12 months and attendance will be one full day per month, commencing at 09:30 hours and finishing around 16:00 hours. Students will have to complete a number of assessment tasks including assignments, projects and group working activities and tasks. It is expected that students will have work outside of the taught sessions and should allow for approximately 6 hours per week study time.

Assessment

Assessment is normally via practical work-based assignments, project and presentations. This ensures you minimise time away from work and that you undertake work study which is relevant to your own organisation's context. You will also build a portfolio of evidence as well as knowledge questions and be observed in your workplace. Students will be expected to work together on some tasks, demonstrating team cohesion and management planning.
